**WE DELIVER
Enjoy!**

Bagels are healthy with a capital "H". They're low-fat, and fiber rich. At Brooklyn Cafe, we use only the finest ingredients along with purified water (formulated to duplicate New York City Water) to produce the highest quality bagel possible. We bake continuously throughout the day to insure you the freshest and tastiest bagel at all times.

BY SERVING you in a bright, clean environment with prompt, friendly service, the owners hope to make your visit to the Brooklyn Cafe a pleasant and healthy experience.

WHAT TO DO WITH YOUR EXTRA BAGELS

Bagels are tastiest when they are eaten fresh. Since there are no preservatives in Brooklyn Cafe bagels, they will begin to harden after 24 hours. To Preserve their freshness you can:

- Cut them in half, put them in individual freezer bags, and put them in the freezer.
- When you get the urge for a bagel you can toast it frozen or put it in an oven or toaster oven preheated to 400 degrees for about five minutes

Using a microwave changes the consistency of the bagel, making it rubbery. If you must use the microwave, heat the bagels a few seconds at a time until they are soft, Eat Promptly!

Enjoy!
